

Valley Highlights

MYER CHERNEY HOLDINGS LIMITED

July 6, 2018

Of local interest...

Trolley Service begins! The DBIA is offering free trolley rides from downtown to Del Crary Park for the Peterborough Musicfest concerts. The trolley started operating on June 30th and will run through August 25th. Pick up will begin at Confederation Square, across from City Hall between 6pm and 10pm. All stops occur on the right side of George Street. The trolley is accessible and can hold 30 people seated and 15 standing. For the 2018 concert line-up visit www.ptbomusicfest.ca.

The Rotary Ribfest returns to Millenium Park on July 13th through 15th, 2018. Stop by for some amazing live entertainment, delicious food from our local restaurants, cold drinks and the best BBQ in Peterborough! For more information, visit their website at www.kawartharotaryribfest.com.

Peterborough's Open Streets event returns to downtown on Saturday, July 21st from 10am to 3pm. **Peterborough Pulse** invites the whole city to walk, bike, dance, play and socialize in spaces typically used by cars! For one day, George Street is transformed into a vibrant car-free corridor. Over 150 activities, live music, entertainment, performances, street sales and more for you and your family to enjoy!

After hours' emergencies...

Frank's Property Services and Steve Mann provide emergency on-call services at Valley High 2. Should you have an **emergency** after regular business hours, please call **705-876-1717 and press '5'**.

Romance Scams...

Peterborough Police are warning the public about 'so-called' romance scams after city residents lost a substantial amount of money to fraudsters. Who is really behind the keyboard? Scammers will try to appeal to your romantic and compassionate side. They prey on you on popular, legitimate dating sites and Facebook. Never send money or give financial information on a dating site. Remember, it's very unlikely someone will declare their love to anyone after a few letters, emails, phone calls or pictures! If you suspect a scam, always report it!

Pet Waste bin...

We have been notified that garbage bags full of dog feces, in excess of 40 pounds, have been placed in and beside the pet waste bin at the west end of the building. These plastic bins are not made to withstand this weight. It is essential that pet owners act responsibly. **Pick up pet waste immediately, every day and place it in the pet waste containers at the east, west and back entrances of the building.**

July generator testing...

Please keep your doors and windows shut and refrain from using the exits at the southwest end of the building; testing dates are noted on the calendar (see reverse).

Telephone building access systems....

Remember to remind family and visitors to Valley High 2 to enter the call numbers for your unit slowly and to speak directly into the speaker. To unlock the door, **press '9'** on your telephone keypad. To refuse entry to the building, simply **'hang up'** or **press '4'**.

HUGE THANK YOU to all tenants...the gardens look magnificent! Special shout out to Gord and Brenda Munro and Brian and Sue Jessup; the front gardens and back lawn at Valley High 2 look marvelous!

Request for maintenance repair...

These forms are always available outside the VH2 office door. Your name, unit number, date, description of work required and your signature need to be filled in. Our maintenance staff are available to tackle issues at the building Monday through Friday between 9am to 4pm!

Stay cool amid what Environment Canada calls a “most significant heat event”

- ✓ Know who’s at risk. With a variety of health risks ranging from heat rash and sunburns to heat stroke, it’s important to be aware – especially for young children, seniors and people with pre-existing medical conditions. Children and seniors are not very good at regulating their body temperatures. Watch over them extra carefully!
- ✓ Watch for symptoms. Being aware of the signs of heat-related illness is the best way to avoid heat exposure turning into something far more dangerous. The biggest thing people can do is pay attention. Symptoms of heat illness include swelling, rashes, cramps and fainting. Also watch out for a racing heartbeat, nausea and vomiting. If any of these symptoms appear, the affected person should immediately be moved into the shade, seated and provided with water. It’s important to treat these situations as a medical emergency!
- ✓ Know how to beat the heat! The key to staying safe is limiting exposure to heat. Avoid being outdoors during the hottest part of the day. Stay hydrated, avoid alcohol and take advantage of air-conditioned spaces such as malls and libraries.

July Office Hours

Monday	Tuesday	Wednesday	Thursday	Friday
2 Closed	3 8:30am – 10:30am	4 3pm – 5pm Generator Testing	5 8:30am – 10:30am	6 Closed
