Cherney Connections

Fire Alarm:

If the building's fire alarm system activates unexpectedly and you have not been advised by our office of scheduled testing, please treat the alarm as a real emergency and exit the building immediately. Do not wait for further instruction. Staying alert and responding promptly ensure everyone's safety.

Fire Extinguishers:

We ensure that fire extinguishers located in common areas are inspected regularly. Tenants are responsible for checking the fire extinguisher(s) within their leased premises to confirm they remain in test, fully charged, and ready for use. Regular internal checks help maintain compliance and support overall life-safety in the building.

Emergency Lighting:

In the event of a power outage, the building's emergency lighting will activate for a short period of time to provide sufficient illumination for occupants to exit safely. Emergency lighting typically remains on for approximately 20 minutes. Tenants and staff should be prepared for full power loss by keeping flashlights or glow sticks accessible within their premises.

In the event of an Emergency:

If you experience a maintenance-related emergency within your leased premises during regular business hours, please contact our office immediately at **705-876-1717**. Calling ensures we can dispatch assistance without delay.

Email should only be used for non-urgent maintenance requests, as it may not be monitored in real time.

Reserved Parking at 171 King Street

If you arrive to find an unauthorized vehicle parked in your designated reserved parking space, please notify our office immediately. We will provide an alternate parking space and take appropriate steps to address the unauthorized vehicle.

Prompt reporting allows us to address parking issues efficiently.
